SUMMARY

Seasoned backend developer with over 4 years of experience in designing, developing, and maintaining scalable and efficient systems. Proficient in Java, Node.js, and a wide range of frameworks including AngularJS, ReactJS, Spring, and Express.js. Demonstrated expertise in DevOps tools like Git, Jenkins, Docker, and cloud platforms such as AWS and GCP. Strong problem-solving skills and a proven track record of improving system performance and reducing costs.

EDUCATION

Indian Institute of Technology (IIT) <i>Bachelor of Technology in Computer Science and Engineering,</i>	Dhanbad, Jharkhand 2015 – 2019
Jawahar Navodaya Vidyalaya <i>Higher Secondary Certificate</i>	Seraikella, Jharkhand 2013 – 2014

EXPERIENCE

Software Developer <i>Biz2credit pvt. lmt.</i>	June 2023 – Present Noida
- Enhanced security by implementing session limiting for incorrect password attempts. - Developed a multi-tenant service to auto-generate client reports with JSON mapping. - Created a JSON to XLSX converter for improved data processing and reporting efficiency. Designed API middleware for seamless third-party API integration. Built internal npm modules for logging and Jaeger SDK implementation in TypeScript and Node.js.	
Software Developer <i>Saveo Pvt. Limited</i>	January 2022 – May 2023 Bengaluru
- Implemented Elastic Search from scratch and managed Jenkins deployment pipelines. Reduced server-side costs by 40% through architecture migration from AWS to GCP. - Achieved zero-downtime deployment using Docker. - Enhanced server monitoring with New Relic. - Developed comprehensive front-end and back-end systems for retailer-specific websites. - Built an authentication and authorization system for internal applications. - Resolved multi-threaded shared memory issues in order placements. - Developed a multi-order digital payment system with near real-time updates. - Designed and implemented backend for customer map view.	
Associate Technology <i>Publicis Sapient</i>	February 2021 – December 2021 Gurugram
- Collected and analyzed data to offer targeted promotions using SFRA. - Updated and enhanced software to meet user needs and specifications. - Conducted thorough testing, debugging, and modifications to ensure high-quality output. - Mapped data use to integration requirements in support of business objectives.	
Founding Member <i>SaddaCampus</i>	August 2018 – August 2020 Dhanbad
Technical Strategy: Developed and executed the company's technical roadmap, aligning with business goals. Team Leadership: Built and mentored a high-performing technical team.	

TECHNICAL SKILLS

Languages: Python, Java, Javascript, C/C++, Typescript
Frameworks: ReactJS, Springboot, ExpressJs, Fastify
Developer Tools: Git, Jenkins, JIRA, New Relic
Databases: MySQL, PostgreSQL, MongoDB
Cloud Platforms: AWS, GCP
Runtime: NodeJs
